912422

**Capsule 120 4 1/2" Headlight**

The Capsule120 is a LED main headlight with two side mounting points for common headlamp brackets. It is vibration-proof, waterproof and suitable as main headlight for all types of motorcycles.

- 100% approved and E- and CE-tested as the sole headlight on the motorcycle
- With parking light, position light as well as low beam and high beam

**912422** Color: Black, Finish: Powder Coated, Glass Color: Clear, Certification: E-Approved, Material: Steel, Lighting Type: LED, Unit: Each, Qty.: 1.0

**Model 8690 Adaptive 2 Headlight Insert**

The Adaptive 2 Series™ uses proprietary technology and on-board sensors to calculate bank angles on a real-time basis, automatically directing the light array up or down as the motorcycle leans. This additional illumination fills in the gaps to the left or right of the motorcycle that traditional headlights can't.

- Improved to feature adaptive technology with the high beam, in addition to the low beam
- On-board intelligence senses leaning angles when cornering to control light
- Dynamically fills in dark areas while turning
- Plug & play solution with PAR46 motorcycle headlight buckets
- Breakthrough improvement in visibility and safety
- Dual Burn™ high & low beam optics for extra punch of light
- ComfortLite™ high beams

**890443** Color: Black, Glass Color: Clear, : With black reflector, Certification: E-Approved, Material: Cast Aluminium, Diameter mm: 146.05mm, Lighting Type: LED, Unit: Each, Qty.: 1.0

**Model 8700 Evo 2 Dual Burn Headlight Insert**

The bright, white LED light of J.W. Speaker headlights just got even brighter. Dual Burn headlights keep the low beam optics on when drivers switch to high beam. Effective light output on the high beam increases about 10% — while the precise solid optics direct the light and maintain being street-legal.

- Dual Burn™ high beam optics for extra punch of light
- Features SmartHeat™ technology for heavy-duty truck applications
- Easy plug and play installation
- ComfortLite™ high beams

**619523** Color: Chrome, Glass Color: Clear, : With chrome reflector, Certification: E-Approved, Material: Cast Aluminium, Diameter mm: 177.2mm, Lighting Type: LED, Unit: Each, Qty.: 1.0

**Stop LED Taillight**

- With STOP emblem and license plate light
- Dimensions: Diameter 68,5 mm, Depth: 48 mm
- Distance between M4 screws: 29 mm

**652777** Color: Black, Glass Color: Red, Bezel Color: Chrome, Certification: E-Approved, Material: Metal, Diameter mm: 68.5mm, Lighting Type: LED, Thread: M4, Unit: Each, Qty.: 1.0

**DYNATEK**

**Dyna S Ignition System Kit**

- Dual fire ignition kit includes Dyna S ignition, dyna high performance coil, wiring and detailed instructions
- Single fire ignition kit includes Dyna S ignition, two dyna high performance coils, wiring and detailed instructions
- Systems use magnetic rotors
- With Original Equipment spark advance mechanisms to retain the factory advance curves
- Replaces points and condensers with a high-performance dual or single-fire system
- Change timing less than 3° from 0-8,000 RPM and feature improved performance
- Easy installation
- Completely self-contained
- Installs behind points cover.

**12098** Fitment: 70-84 FL Shovel, 71-84 FX Shovel, 85-94 FX Model, 70-03 Sportster, 91-99 Dyna, 84-99 Softail, 86-99 Touring, : Dual Fire, Unit: Kit, Qty.: 1.0

**DYNATEK**

**Dyna S Electronic Ignition**

Systems use magnetic rotors with Original Equipment spark advance mechanisms to retain the factory advance curves and replace points and condensers with a high-performance dual or single-fire system.

- Ignition only

**12319** Fitment: 71-79 Sportster, 70-79 FL Shovel, 71-79 FX Shovel, : Dual Fire, Unit: Kit, Qty.: 1.0

**DYNATEK**

**Ignition Coils**

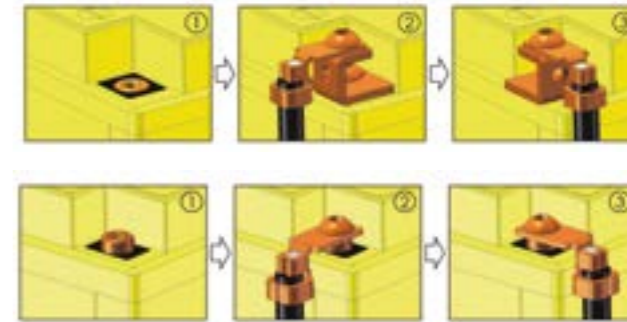

Dynatek coils for Harley-Davidson applications are high-quality American-made performance coils designed to provide spark voltages in excess of 30,000 volts and spark energy second to none. Coils may be installed in conjunction with Original Equipment V-Fire III and compatible after-market electronic and point-type ignition systems. Available in four 12-volt versions with single and dual towers, these coils are the perfect answer for two or four plug heads. Additional brackets will be required for installation. Sold in pairs.

**09418** Fitment: 70-84 FL Shovel, 71-84 FX Shovel, 85-94 FX Model, 70-03 Sportster, 91-99 Dyna, 84-99 Softail, 86-99 Touring, Color: Black, Operation Type: Single Fire, Resistance: 50Ohm, Unit: Pair, Qty.: 1.0

**MOTOBATT**  
WITH QUADFLEX™ TECHNOLOGY

**Quadflex AGM Battery**

- Reduce your battery inventory by nearly 85%
- 2 x Minus and 2 x Plus Connectors
- Quit messing around with electrolyte
- MotoBatt is an AGM battery, a type of sealed lead acid battery!
- Get all the benefits of a GEL battery at a sensible price
- Shipped dry with high gravity

**619278** Fitment: 97-03 Sportster, 07-17 V-Rod, 91-21 Softail, 91-17 Dyna, 97-02 M2, 97-99 S3, 99-02 X1, Color: Black, Battery Type: AGM, OEM #: 65989-97D, 65989-90B, Capacity: 21.0Ah, Cold Cranking Amps: 310A, Unit: Each, Qty.: 1.0

**Unibat**

**CX Heavy Duty Battery**

AGM technology (Absorbed Glass Mat) is an innovative system used by UNIBAT. When pouring the acid, battery is completely sealed, to avoid further annoying refills.

- 30% more power than classic AGM batteries
- Reinforced and more robust design
- Completely filled and sealed
- Leak proof and completely maintenance free
- Reinforced housing and connection contacts
- Particularly resistant to vibrations and shocks
- AGM technology with glass fiber fleece (similar to gel technology)
- More charge cycles than conventional acid batteries
- Battery installation possible in every position
- Vibrations resistant

**Color: Black, Battery Type: AGM, Unit: Each, Qty.: 1.0**

**Bike-Power GEL Battery**

The heavy-duty bundle of energy copes well with the strongest road shocks and engine vibrations from Harleys or other large-displacement bikes and also starts two-wheelers with a high demand for electrical energy (e.g. with ABS).

- Perfect for Harleys and other high displacement 2-cylinder engines
- Highest cold currents
- For two-wheelers with high energy requirements, e.g. ABS safety technology
- Extremely vibration resistant, plate packs compressed and accurately fitted in the battery box
- Robust housing made of impact-resistant plastic for heavy mechanical stresses
- Leak-proof, can be installed at any angle, electrolyte bound as gel
- Absolutely maintenance-free

**Battery Type: Gel, Unit: Each, Qty.: 1.0**

### ThunderMax Engine Control System (ECM)

Would you like to have full control of your EFI system, freedom to make major or minor adjustments without the need for a dyno or a degree in computer technology? Here is a simple solution - ThunderMax with Auto-Tune! The ThunderMax is a product that replaces the factory module and is not an add-on box or signal modifier. The ThunderMax is purpose built to deliver uncompromising performance.

Just how easy is it? Installation is a straightforward replacement of the factory module and oxygen sensors. The ThunderMax software contains hundreds of base maps that cover over 80% of popular factory and aftermarket combinations, each dyno-developed on real motorcycles. Choosing a basemap is a quick & easy process thanks to the software's sorting filters; loading a map takes less than a minute. After that you're ready to start the motorcycle, let the bike warm up at idle to operating temperature and you're ready to ride! During your ride, the ThunderMax Auto-Tune system analyzes the air/fuel ratio read by the wide-band oxygen sensors at warp speed after every cylinder fire and makes any necessary adjustments to the injector pulse width to achieve the desired air/fuel ratio while compensating for variations in injectors, fuel pressure, throttle body or exhaust flow. With every tank of fuel, at any temperature or elevation, your engine's tune is optimized by ThunderMax.

Simply put, ThunderMax is the most advanced, yet user friendly, performance engine management system you can buy for your Harley. Using the supplied ThunderMax software and communication cable allows you to adjust and monitor virtually every parameter in the system. Installation and How-To Videos are available on-line

- Quick & Easy Installation
- Enhanced Overall Engine Performance
- Improved Throttle Response & Rideability
- Cooler, Smoother Running Engine
- Automatically Tunes As You Ride
- Grows With Your Bike
- Adjustable AFR Targets, Adjustable Idle Speed & Rev Limit RPM (minimum idle should be never less than 800 RPM!)
- Adjustable Spark / Ignition Timing

- Automatic IAC Calibration, Speedometer Calibration
- Reduces or Eliminates Exhaust Decel Pop
- Diagnostic Code & Digital Tech Compatible
- Running Statistics & Logs
- Start Fuel Pulse, Engine Temp Alarm Setting
- Injector Size Compensation
- Live Engine Tuning, Monitoring, Recording
- Map Analysis & AutoMapping
- Nitrous & Supercharger Compatible
- One-Button Support

### Brake Caliper

With GP racing architecture and weight distribution, the extra rigidity maximizes your effort at the brake lever, stopping you faster with more feel. RSD brake calipers coupled with RSD Radial master cylinders are the ultimate V-twin braking system providing unparalleled feel and power.

- Dual-disc application require separate purchase of left and right calipers
- Feature differential bore pistons (1.125" & 1.375") that apply a different force at both the leading edge and the trailing edge of the brake pads for superior braking
- Includes DP brake pads, bleeder screw, 3/8"-24 banjo bolt and sealing washers & shim kit
- Available in Contrast Cut, Black Op, Machine Ops and Chrome finishes
- RSD Contrast Cut product starts with a finely machined polished and black anodized part which is re-machined to bring out the design highlights. Close attention is paid to machine pattern and quality to ensure the best and cleanest machine work.

**895899** Fitment: 00-01 Touring, Fitment Note: Sportster not compatible with stock master cylinders. Requires use of 9/16" master cylinder for single disc applications and 11/16" master cylinder for dual disc applications. Right side calipers are only compatible with models that came stock with dual discs, Color: Contrast Cut, Position: Rear, Material: Billet Aluminium, Unit: Kit, Qty.: 1.0

Legend Air ST Twin Rear Shocks

- All new Legend AIR Suspensions Systems sets the high mark in ultimate ride quality
- New redesigned exclusive Aramid Fiber air spring technology provides spring rate adjustability
- Air springs maximize wheel travel and adjust to any desired ride height
- Fitment accommodates 13" and 12" needs
- Spherical mount bearings top and bottom
- Hard anodized machined aluminum bodies
- Legend's low-friction seals eliminate stiction
- High flow piston reacts quickly for improved fluid flow management
- Deflective disc valved damping self adjust to frequency and ensures controlled performance
- Air compressor included, pre-wired, and model specific mounting
- Complete wire harness installed with three easy Deutsch connections
- System includes OEM looking black handlebar mounted control for easy „on-the-go“ adjustability
- Optional chrome handlebar mounted control sold separately (CCE# 890051)
- Made by hand in Sturgis, South Dakota, USA

**697148** Fitment: 00-17 Softail, Color: Black, Certification: CCE TÜV-Approved, Position: Rear, Unit: Each, Qty.: 1.0

465 Series SGL Mono Shock

Improved damping characteristics and spring rates result in increased suspension compliance. This allows the rear suspension to more effectively absorb road irregularities, such as bridge abutments and longitudinal pavement cracks without the harshness associated with the OE suspension. Chassis stability is also improved for a more confidence inspiring ride. The 5 position rebound damping adjuster allows the rider to fine tune the shock for comfort and control.

- Hard Anodized aluminum body
- Anodized aluminum shock mounting eye's with spherical bearings (OE is rubber bushing / needle bearing)
- High pressure nitrogen, mono tube design
- Threaded or R.A.P. (Remote Adjustable Preload) pre-load adjusters

**Fitment: 18-22 Softail, Color: Black, Certification: TÜV-Approved, Position: Rear, Diameter mm: 45.0mm, Length mm: 321.0mm, Length eye to eye: 12,5", Unit: Each, Qty.: 1.0**

Part#	Description
906742	1" lowered
906746	1" lowered, remote preload adjuster

490 Series Twin Shocks

The 490 Sport Series Shocks feature a high-pressure monotube with deflective disc damping technology, hand threaded preload and a rebound adjustment to dial in the ride. This technology coupled with a linear rate spring allow for consistent feel through the damper stroke and the ability to withstand extreme temperature ranges and heavy loads. An engineered jounce bumper with a built-in metal cup also help smooth out and control bottoming.

- High Pressure Gas Monotube
- Deflective Disc Damping
- Lightweight Aluminum Body
- Jounce Bumper with Built-in Cap
- Standard and Bearing Bushings

**893897** Fitment: 91-20 Sportster, except 09-10 XR1200, 10-12 XR1200X, Color: Black, Position: Rear, Length mm: 304.8mm, Length eye to eye: 12", Unit: Pair, Qty.: 1.0

### 412 Series Twin Shock

The 412s simple, durable design means they will be an improvement to your motorcycle's suspension performance for as long as you are riding it.

- All Steel double wall damper with multistage velocity sensitive damping
- 5-position cam style preload adjuster
- High Pressure Gas Charged for constant damping performance
- Standard or Heavy-Duty progressive rate springs

**Color: Black, Certification: TÜV-Approved, Position: Rear, Qty.: 1.0**

### Racing 2-Seat Rear End Conversion Kit

This Cult-Werk rear conversion is an ABS plastic part and is CNC milled on the most modern 5-axis machining centers! The rear fender „Racing“ was optically very complex and the rear is characterized by very simple assembly. All you have to do is remove the original rear section and replace it with our metal inner fender. Then the lighting in the rear fender has to be wired and finally the ABS plastic part is screwed to the metal inner fender! The rear can be used for tires up to 280 mm and the narrow construction results in a very beefy look.

- Includes fender base, fender cover, leather seat and mounting hardware

**914870** Fitment: 19-20 FXDRS 114, Finish: Ready To Paint, : 2-Up version, Certification: TÜV-Approved, Position: Rear, Material: ABS, Unit: Kit, Qty.: 1.0
